PC Steve Winn is in the process of visiting farms in his Neighbourhood beat to the north of Market Harborough to

Currently all terrain vehicles (ATVs) are being targeted by rural gangs at the moment and owners are being asked to take extra care security marking and keeping them out of sight when not in use and under lock and key wherever possible.

A Leicestershire & Rutland Rural Watch facebook page has been set up to bring everyone together in the fight against rural crime, this means alerts can be issued asking people to be extra vigilant within moments if necessary.

Lives Not Knives

Leicestershire Police has launched the latest phase of its Lives Not Knives campaign with some hard hitting imagery. The imagery, which will appear on buses throughout the city and county aims to highlight the consequences and educate people from picking up a knife in the first place.

Statistically, those who choose to carry a knife as a weapon or as a protective measure, are more likely to be injured or killed by it.

The campaign has teenagers specifically in mind and aims to educate them of the dangers of carrying a knife as early as possible. The images will also appear on social media for the next few months. In addition, they have been distributed to partners throughout Leicester, Leicestershire and Rutland to share.
